

Brainstorming & Idea Prioritization Template

Date	1 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well Being
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	CH.Sri Vikash	Predict a country's HDI tier (Very High/High/Medium/Low) from life expectancy, education, and GNI per capita indicators	Model Development	1
2	Eswar Teja	Build a classification model that outputs the four HDI development categories with a confidence score	Model Development	1
3	CH.Sri Vikash	Engineer features for mean years of schooling and expected years of schooling as education indicators	Data / Feature Engineering	2
4	CH.Sri Vikash	Incorporate Gross National Income (GNI PPP) per capita as the income/living-standard indicator	Data / Feature Engineering	2
5	Eswar Teja	Design an interactive dashboard where users can view predicted HDI scores and compare countries	UI / Visualization	3
6	Eswar Teja	Allow policymakers to input custom indicator values to simulate scenarios and identify development gaps	UI / Visualization	3

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
1	HDI prediction and classification model (Very High/High/Medium/Low) using life expectancy, education, and GNI per capita	High	High	1	Yes
2	Feature engineering pipeline for schooling and income indicators to feed the prediction model	High	High	2	Yes

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
3	Interactive dashboard for visualizing and comparing HDI predictions across countries	Medium	High	3	Yes
